Step 1
remove all packaging from in and around umbrella

Step 2
pull pin from cam lock and lift the handle to unlock umbrella

Step 3
once you have leveled the stem using the base installation instructions, slide the beauty cover and umbrella over the security stem (security stem is included with umbrella)
Ensure that cables are not pinched when inserting the umbrella over the security stem and when installing the beauty cover.

Step 4
lock umbrella down by pushing the cam lock handle in the down position and reinsert the pin. Mount beauty cover over control box.
Step 5
Plug in your umbrella into a 220V receptacle. The TUUCI logo on the user control panel will be backlit in white, when the umbrella is properly plugged into the power source.

Step 6
Press the Power button to turn on the umbrella. The button will be backlit in red when the power is ON. In addition, when the umbrella is ON, the light icon and heater icon will be backlit in white.

Step 7
Make sure the gear lock button is in the top position before turning the crank handle.

Step 8
Insert and rotate the crank handle counter-clockwise until the cable connector is inline with the cable bracket.
Note: The canopy and umbrella will remain closed. It is important to keep tension on the cable connector as you continue turning the crank in a counter-clockwise position.

Step 9
a) Pull the security pin from the trolley car bracket.
b) Pull the cable connector so it aligns with the trolley car bracket.
c) Fasten the cable connector to the trolley bracket with the security pin.

Step 10
Gently separate each rib individually from the center hub approximately 10 inches. If the rib does not move easily, do not force. Inspect the product for additional packaging.

CAUTION
Ensure that your umbrella is level (not tipped or tilted). For safety reasons, if the umbrella is tipped, you will not be able to turn-on the Ambia LED light and heaters.

Ensure that there is nothing blocking the canopy of the umbrella from being fully opened.
**light and heaters**

**TURN ON LIGHT AND HEATERS**

- **Turning the Ambia LED light on**
  Press the light bulb icon button to turn-on the Ambia LED light. The color will change from white to blue after pressing the button, signaling that the light is ON.

- **Step 2**
  Press the light bulb icon button to turn-off the Ambia LED light. After pressing the button, the color will change to white, signaling that the light is OFF.

- **Step 3**
  Press power button to turn off the umbrella.

- **Step 4**
  Close the umbrella with tie-back when not in use.

**NOTE:**

*Umbrella should not be closed entirely until heaters have cooled down.*

*Allow at least 15 min. for heaters to cool.*

*Close umbrella during consistent wind conditions that exceed 25mph.*
Power Supply:
Main Input Voltage: 208-240VAC  50/60 Hz
Max. Amps: 13.7 A @220Volts AC
12.6 A @240Volts AC
Max. Watts: 3010 Watts

Lights and (2) Heaters Electrical Specs:
North America version:
208-240V, 2 phases 60Hz (requires a minimum 15 Amp circuit)
Umbrella comes with 10ft Power Cord & Plug
(Use with 20A - 250 Volts, NEMA 6-20R Receptacle compatible with NEMA 6-20P Plugs)

Europe version:
220-240V, 1 phase 50Hz (requires a minimum 16 Amp circuit)
Umbrella comes with 10ft Power Cord & Plug
(Use with 16A - 250 Volts, Schuko Receptacle compatible with Schuko 16A - 250 Volts Plug)

Customer must connect to a protected power source circuit with proper Current Rating “Amps”, near the umbrella, using an above ground Junction box, according to their local electrical codes and regulations.

warnings & safety instructions
1. Read and understand entire owner’s manual before assembling or operating umbrella.
2. Read and understand the warnings posted on the umbrella and/or components installed on the umbrella.
