HIGH-PERFORMANCE MARINE GRADE SHADE FABRICS
CONTRAST BINDING

ACCENT BORDERS

CONTRAST POCKETS

DOUBLE-SIDED
We use Sunbrella fabrics to create beautiful and resilient shade structures. Extensive color and customization options include contrast binding and pockets, accent borders, and double-sided canopies.

UNPARALLELED DURABILITY
Sunbrella Silica fabrics are distinctly different from front to back. Either side is usable. Please be consistent in orientation.

- **Silica Caribbean** 4881-0000
- **Tresco Eucalyptus** 4670-0000
Sunbrella® shade fabrics do more than just look good. Durability, sun protection and fade resistance are engineered into each solution-dyed acrylic fiber, so shade products made with Sunbrella fabrics last longer.

**UV / Fade Resistant**
Sunbrella fibers are saturated with highly UV stable pigments. Traditional dyeing methods only add color to the fiber exterior. Sunbrella fabrics’ performance characteristics are an integral part of the fabric, not an applied finish that would wash off over time.

**Bleach Cleanable**
To easily remove tough stains, simply clean Sunbrella fabrics with a bleach solution. Because the color goes to the core of the fiber, the fabrics will not lose their color.

**Mold / Mildew Resistant**
Sunbrella fabrics inherently resist the growth of mold and mildew. To keep your fabrics looking clean, brush off dirt and debris before it gets embedded in the fabric.

**Breathable Comfort**
Sunbrella shade fabrics are breathable and allow air to pass through them, creating a comfortable space below.

**We stand behind our fabrics with an industry-leading guarantee:**
a 10-year limited warranty for shade and marine fabrics.

**The Skin Cancer Foundation recommends certain Sunbrella fabrics in shading products as part of a complete sun protection regimen, including regular use of sunscreen, to aid in preventing sun-induced skin damage.**
